PROFESSIONAL SUMMARY

Results-driven full-stack developer with experience in building performant, SEO-friendly web applications, seeking to leverage my skills as a Principal Product Manager at DigitalOcean, utilizing my expertise in cloud computing, API integration, and web development to drive product growth and innovation.

EXPERIENCE

- Frontend Developer at Navi Telematics Private Limited: Built responsive web apps with Next.js using SSR for performance and SEO, and deployed applications on AWS, improving scalability and performance.
- Software Developer at A.V Tech IT services: Partnered with the Design team to launch interactive UI workflows, collaborated with the engineering team to ship stable experiences, and integrated REST APIs for reliability and performance.
- Software Developer at Sustain Mall: Delivered responsive React.js websites, partnered with the Design team to develop interactive UI workflows, and contributed to consistent cross-device behavior and smooth releases.
- Freelancer at Valueonshore ('VOS') Advisors: Built a valuation model, developed an automated report generation feature, and enhanced financial forecasting.

SKILLS

Cloud Computing, API Integration, Web Development, Frontend Development, Backend Development, Database Management, Next.js, React, Django, Python, AWS, GitHub, REST APIs, HTML, JavaScript, C, C++, SEO, SSR, Cross-device UX
