PROFESSIONAL SUMMARY

Results-driven professional with experience in software development, seeking a Shift Leader role at Domino's, utilizing skills in team management, customer service, and time management to drive business growth and excellence.

EXPERIENCE

- Frontend Developer at Navi Telematics Private Limited: Built responsive web apps with Next.js using SSR for performance and SEO, and deployed applications on AWS, improving scalability and performance.
- Software Developer at A.V Tech IT services: Partnered with the Design team to launch interactive UI workflows that enhanced user engagement, and collaborated within a team to ship stable, cross-device experiences on schedule.
- Software Developer at Sustain Mall: Delivered responsive React.js websites, enhancing performance and user experience, and contributed to a team to ensure consistent cross-device behavior and smooth releases.
- Freelancer at Valueonshore ('VOS') Advisors: Built a valuation model with a team of developers to enhance financial forecasting, and developed an automated report generation feature to streamline annual financial reporting.
