PROFESSIONAL SUMMARY

Results-driven software developer with experience in building scalable web applications, seeking a shift leader role at Domino's to leverage my skills in team management, customer service, and problem-solving.

EXPERIENCE

- Frontend Developer at Navi Telematics Private Limited: Built responsive web apps with Next.js, added real-time vehicle tracking, and deployed applications on AWS.
- Software Developer at A.V Tech IT services: Partnered with the Design team to launch interactive UI workflows and collaborated with the engineering team to ship stable experiences.
- Software Developer at Sustain Mall: Delivered responsive React.js websites, partnered with the Design team, and contributed to consistent cross-device behavior.
- Freelancer at Valueonshore ('VOS') Advisors: Built a valuation model and developed an automated report generation feature.

SKILLS

Frontend Development, Backend Development, Cloud Computing, API Integration, Web-Designing, Database Management, C, C++, Python, React, HTML, JavaScript, Next.js, Django, AWS, GitHub
